MOUNTING SPECIFICATIONS

1. Remove your license plate from the vehicle.
2. Attach one of the included bolts to the license plate. Leave it loose so the U-lite Frame can pivot.
3. Pivot the U-lite frame on a slight angle so that you can re-attach the license plate to the vehicle.
4. Once the license plate is attached to the vehicle, pivot the U-lite Frame into place and attach the remaining bolts to secure the U-lite Frame.

HARDWIRING

1. Connect the Red wire to + 12V of power. Attach a switch to power the lights on and off.
2. Connect a fuse within 1 ft. of your power source to protect the light.
3. Connect the Black wire to Ground.
4. Connect the Yellow wire to a Momentary Switch to change the pattern. Or set the light to your desired pattern and then tape the wire off.

LEGEND KEY [Fuse symbol] Fuse [Switch symbol] Switch [Ground symbol] Ground

WARNING:

- Do not install this product or route any wires in the deployment area of your air bag. Equipment mounted or located in the air bag deployment area will damage or reduce the effectiveness of the air bag, or become a projectile that could cause serious personal injury or death. Refer to your vehicle owner's manual for the air bag deployment area. The User/Installer assumes full responsibility to determine proper mounting location, based on providing ultimate safety to all passengers inside the vehicle.
- Do not attempt to activate or control this device in a hazardous driving situation.
- Nighttime operation of this product may produce reflected light within the vehicle! Use With Caution.

IMPORTANT!

Before returning this vehicle to active service, visually confirm the proper operation of this product, as well as all vehicle components/equipment.

**WARRANTY INFORMATION:**

UBL Electronics offers warranties on several items. This warranty protects the product(s) specified to be free from defects in material and workmanship for 1 (one) year. For "Work Lights", the product is warranted for 5 (five) years.

During the warranty period we will, at our sole discretion, repair or replace the product(s). This limited warranty does not cover travel expense or labor charges for the removal and re-installation of the product, or any other charges alike.

UBL Electronics is not responsible for incidental damages, including but not limited to: loss of time, loss of work, inconvenience, loss and/or damage to personal property, shipping expenses.

We are in no way responsible for any loss or any indirect or consequential damages resulting from any such defect in material and/or workmanship whether it's due to negligence, incorrect installation, or manufacturer mistake.

Use of incorrect electrical power other than specified by the manufacturer, or use of inappropriate or inadequate wiring or proper circuit protection or failure to follow instructions will result in invalidation of this warranty.

Resellers and end users are prohibited from modifying this warranty.

This warranty does not provide you with a refund, only replacement or repair of your item.

Removal of any included cigarette lighter plugs will void this warranty.

If mounting this product requires drilling holes, the installer MUST be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both sides of the mounting surface before drilling begins. Also de-burr any holes and remove any metal shards or remnants. Install grommets into all wire passage holes.

**THIS WARRANTY IS SUBJECT TO CHANGE WITHOUT NOTICE.**

**WARNING:**

- If you do not know what you are doing, do not try.
- We advise professional installation for all products.
- Electrical shock can cause injury or death. Please use proper tools and protection when installing lights. Professional installation is strongly advised.
- These are high intensity lights. Please allow adequate distance before looking directly into them.
- Please check for correct installation method before powering on. Electrical fire can occur.
- Professional installation is highly recommended.
- Do not run any wires in the way of air bags or other safety devices.
- Suction cups may dislodge and become a projectile during the event of a collision. Use suction cups at your own discretion.
