MOUNTING SPECIFICATIONS

1. Place module against the desired mounting location. Mark the outer holes for where the screws will attach.
2. Drill two 1/16" holes for mounting the light. Be sure to check behind mounting surface for clearance.
3. Drill one .5" hole in the center for the wires to exit. Deburr thoroughly to avoid damaging the wires.
4. Pass wires through the hole and mount using the included hardware.

HARDWIRING

1. To power the unit, extend the red (+) wire to a 12V+ post. Extend the black (-) wire to the ground post of the vehicle's battery.
2. Wire in a 12V switch or controller. Include a 3 AMP fuse within 12" of your power source to protect your circuit. Or set the light to your desired pattern and then tape the wire off.

SYNC/PATTERNS

1. Momentarily apply the yellow wire to +12V for one second to change the pattern.
2. Set the lights to the same pattern.
3. Connect the yellow wires together. Connect the White (Sync A) to the Gray (Sync B) for the lights that you would like to be primary and secondary, respectively.
4. Light heads will now stay in sync.

WARNING:

- Do not install this product or route any wires in the deployment area of your air bag. Equipment mounted or located in the air bag deployment area will damage or reduce the effectiveness of the air bag, or become a projectile that could cause serious personal injury or death. Refer to your vehicle owner's manual for the air bag deployment area. The User/Installer assumes full responsibility to determine proper mounting location, based on providing ultimate safety to all passengers inside the vehicle.
- Do not attempt to activate or control this device in a hazardous driving situation.
- Nighttime operation of this product may produce reflected light within the vehicle! Use With Caution.

IMPORTANT!

Before returning this vehicle to active service, visually confirm the proper operation of this product, as well as all vehicle components/equipment.

WARRANTY INFORMATION:

UBL Electronics offers warranties on several items. This warranty protects the product(s) specified to be free from defects in material and workmanship for 1 (one) year. For "Work Lights", the product is warranted for 5 (five) years.

During the warranty period we will, at our sole discretion, repair or replace the product(s). This limited warranty does not cover travel expense or labor charges for the removal and re-installation of the product, or any other charges alike.

UBL Electronics is not responsible for incidental damages, including but not limited to: loss of time, loss of work, inconvenience, loss and/or damage to personal property, shipping expenses.

We are in no way responsible for any loss or any indirect or consequential damages resulting from any such defect in material and/or workmanship whether it's due to negligence, incorrect installation, or manufacturer mistake.

Use of incorrect electrical power other than specified by the manufacturer, or use of inappropriate or inadequate wiring or proper circuit protection or failure to follow instructions will result in invalidation of this warranty.

Resellers and end users are prohibited from modifying this warranty.

This warranty does not provide you with a refund, only replacement or repair of your item.

Removal of any included cigarette lighter plugs will void this warranty.

If mounting this product requires drilling holes, the installer **MUST** be sure that no vehicle components or other vital parts could be damaged by the drilling process. Check both sides of the mounting surface before drilling begins. Also de-burr any holes and remove any metal shards or remnants. Install grommets into all wire passage holes.

THIS WARRANTY IS SUBJECT TO CHANGE WITHOUT NOTICE.

WARNING:

- If you do not know what you are doing, do not try.
- We advise professional installation for all products.
- Electrical shock can cause injury or death. Please use proper tools and protection when installing lights. Professional installation is strongly advised.
- These are high intensity lights. Please allow adequate distance before looking directly into them.
- Please check for correct installation method before powering on. Electrical fire can occur.
- Professional installation is highly recommended.
- Do not run any wires in the way of air bags or other safety devices.
- Suction cups may dislodge and become a projectile during the event of a collision. Use suction cups at your own discretion.
